

SpaceSaver® Residential Electric Water Heaters

For installations where space is at a premium

Designed for installations in cottages, offices, mobile homes or other applications where space is limited, the SpaceSaver® line of residential electric water heaters provides optimum reliability, performance and energy efficiency. With special features and a broad range of models and sizes, there is a GSW product to suit any application.

HIGH QUALITY FEATURES

- Exclusive TankSaver® design
- Glass-lined tanks for longer life
- Meets latest energy efficiency standards
- Factory-installed plastic lined nipples
- T&P factory installed
- Removable anodes
- Galvanized bottom pan protects water heater from corrosion
- Patented Styropour® base for added energy efficiency
- Thermostatically controlled long life elements
- CFC-free foam insulation
- Personnel protector covers elements and controls

Exclusive Design

The exclusive TankSaver® design works to prolong tank life. TankSaver® impedes corrosion by guarding metal tank openings from exposure and keeping them watertight. The durable construction virtually eliminates rust.

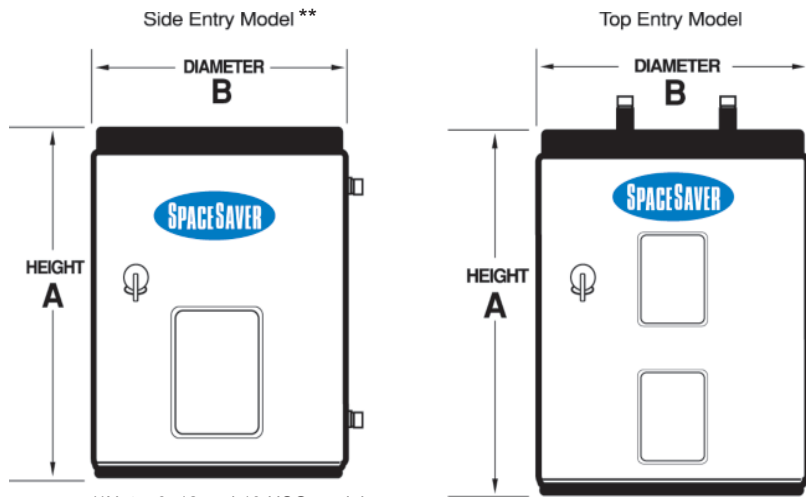

SpaceSaver® Compact Electric Water Heaters
